EXPERIENCE:

Working Student in Logistics Department

09.2025 – Current

POCO Einrichtungsmärkte GmbH, Munich, Germany

- Inventory management and shipment tracking using ERP and WMS
- Coordinating outbound order fulfillment, preparing shipments and verifying contents against purchase orders using the Warehouse Management System (WMS)
- Monitoring daily inbound/outbound shipments and coordinated outbound order fulfillment
- Managing inventory placement utilizing 5S methodologies, optimizing space utilization and improving picking efficiency, which directly contributed to achieving zero inventory defects
- Managing the discrepancy reporting process for inbound logistics, including the documentation of damaged parts and incorrect delivery quantities to maintain 100% data accuracy

Trainee Engineer in Research and Development Department

08.2022 – 01.2023

Crompton Greaves Power and Industrial Solutions Limited, Nashik, India

- Effective designing, efficient drafting and testing activities
- Executed material procurement using SAP ERP (R/2) and coordinated with Logistics team for on time delivery

Intern in Production Planning, Control, and SCM Department

11.2021 – 05.2022

Bosch, Nashik, India

- Utilized SAP ERP (R/3) software for Inventory tracking
- Created Value Stream Map (VSM) to analyze production workflow and identify bottlenecks
- Standards implemented for maintaining FIFO and Inventory levels to reduce non-value-added time ultimately reducing Lead time
- Kaizen principles were applied to easily display inventory levels
- Japanese 5S principles were implemented for standardizing, and maintaining FIFO, which reduced searching time
- Incorporated GEMBA principles to locate hidden waste
- Used in-house Scrum software as Project Management tool

EDUCATION:

Master's: Engineering and Management (Industrial Engineering) **10.2023 – Current**

Technische Hochschule Ingolstadt, Ingolstadt, Germany

Majors: Production Systems, Lean Manufacturing, Logistics, Supply Chain Management

Bachelor of Technology: Mechanical Engineering

08.2019 – 05.2022

MIT World Peace University, Pune, India

Majors: Industrial Engineering, Production Systems, 2D & 3D Modeling (Autodesk Suite)

PROJECTS:

Assignment: Warehouse Operations Transformation

09.2025 – Current

POCO Einrichtungsmärkte GmbH, Munich, Germany

- Achieved zero inventory discrepancies in the assigned area through consistent stock accuracy, labelled location management, and timely discrepancy resolution.
- Contributed to a noticeable reduction in customer returns, lower order cycle times, and sustained high-volume operations with optimized labor requirements.

Research project: Sustainable Practices of Air Freight Transport

04.2025 – 07.2025

Bachelor Thesis: Lean Organization implementation in the Value Stream **11.2021 – 05.2022**

Bosch, Nashik, India

- Achieved significant inventory reduction by standardizing FIFO and implementing 5S principles
- Optimized consumption control through Kaizen visualization techniques

CO-CURRICULAR:

Lean Leadership Training, Audi Akademie, Ingolstadt, Germany

12.2023 – 12.2023

Hands-on program with a live production simulation applying Toyota Way principles: waste elimination, Value Stream Mapping, and process redesign, alongside team-based problem-solving

SKILLS:

Technical Skills SAP Business Network Supply Chain Collaboration (ongoing course)

SAP ERP (S/4HANA, R/3, R/2) (Inventory management)

Jira (Project Management Institute certified)

MS Office (Excel, Word, PowerPoint, Outlook, Teams)

Lean Six Sigma White Belt Certified

Languages German – B1-B2 (Intermediate)

English – C1 (Fluent / Business Fluent)

Marathi, Hindi – Native

Soft Skills Proactive and Structured working style

Collaborative & Team-oriented

High attention to detail
